# Introduction

## Corporate Review Policy

A corporate policy is a set of rules that helps an organisation work properly, fairly and honestly. It guides employees, reduces risks and helps the organisation follow rules.

## Corporate Governance and Ethics Policy

Corporate Governance refers to the rules and processes used to direct and control a company. It ensures transparency, accountability, fairness and responsible decision-making. An Ethics Policy guides employees and management to follow honesty, fairness, confidentiality and laws. It helps build trust and protect the company's reputation.

## Apple Inc.,

Apple Inc. is an American multinational technology company founded in 1976 by Steve Jobs, Steve Wozniak and Ronald Wayne. Its headquarters is located in Cupertino, California, USA. Apple designs and sells popular products such as the iPhone, Mac, iPad and Apple Watch. The company is known for its innovation, quality, customer privacy and user-friendly designs.

# Policy Overview

Corporate Governance and Ethics Policy helps a company operate responsibly and ethically.

- **Board Responsibility**

  The Board of Directors supervises company management and major business decisions.

- **Transparency**

  The company provides financial reports and important business information to shareholders.

- **Ethical Conduct**

  Employees are expected to act honestly and professionally.

- **Conflict of Interest**

  Employees should disclose and manage personal interests that may affect their business decisions.

- **Customer Privacy**

  Personal information should be handled responsibly and protected from unauthorised access.

- **Supplier Responsibility**

  Suppliers are expected to follow standards relating to labour rights, workplace safety and environmental protection.

- **Legal Compliance**

  The company and its employees should follow applicable laws and regulations.

## Key Provisions of The Policy

The policy contains important rules and guidelines that be should follow.

- **Board Governance:**

  Oversees management and ensures accountability.

- **Ethical Conduct:**

  Promotes honesty, fairness and responsible behaviour.

- **Transparency and Accountability:**

  Ensures accurate information and responsible management.

- **Shareholder Protection:**

  Protects shareholder rights and interests.

- **Privacy Protection:**

  Safeguards customer information and personal data.

- **Supplier Responsibility:**

  Encourages fair labour practices, workplace safety and environmental protection.

## Compliance and Governance Analysis

- **Corporate governance requirements**

  Applicable company laws and governance regulations guide board responsibilities, shareholder rights and corporate accountability.

- **Privacy and data protection:**

  Applicable privacy laws and regulations guide the collection, use and protection of customer information.

- **Labour and employment laws**:

  These help ensure fair working conditions and protect employee rights.

- **Environmental regulations**:

  These guide the company's efforts to reduce environmental harm and follow environmental requirements.

- **Financial reporting and disclosure**:

  Applicable rules promote accurate financial information and transparency for shareholders.

**How the Policy Supports Compliance**

- Accurate financial reporting improves transparency.
- Ethical rules help prevent fraud and bribery.
- Privacy practices protect customer data.
- Supplier standards promote fair working conditions.
- Environmental practices support legal compliance.
- Reporting procedures help identify misconduct.

**Governance Mechanism**

Apple's governance framework includes the Board of Directors, board committees, senior management and internal controls. The board oversees company management, while senior management implements policies. Regular audits, supplier assessments, employee training and policy reviews help ensure compliance and responsible business practices.

## Policy Evaluation

Apple's corporate governance and ethics framework provides guidelines for responsible management, stakeholder protection and ethical business practices.

- **Clear Responsibilities:**

  The board and management have defined roles in overseeing the company's activities.
- **Ethical Standards:**

  Company policies explain the expected behaviour of employees and business partners.
- **Transparency:**

  Financial reporting and shareholder communication support accountability.

- **Privacy Protection:**

  Privacy controls help customers manage their personal information.
- **Supplier Monitoring:**

  Supplier standards and assessments help identify labour and safety concerns.
- **Environmental Responsibility:**

  The company works to reduce emissions and improve the use of materials.
- **Risk Management:**

  Internal controls and compliance procedures help identify financial, legal and operational risks.

**Effectiveness and Limitation**

This policy helps maintain transparency, accountability and ethical business practices. However, challenges include ensuring compliance across the organisation, protecting customer information, preventing unethical conduct and monitoring suppliers. Regular audits, employee training and policy reviews can help address these challenges.

**Comparison with a Good Corporate Policy**

A good Corporate Governance and Ethics Policy should include clear responsibilities, transparency, accountability, ethical standards, shareholder protection, privacy, employee training and regular monitoring. Apple's policies cover these areas, but stronger supplier monitoring, better public reporting and regular employee training can further improve their effectiveness.

## Business Relevance

## Apple Inc.

Apple Inc. is selected for this case study because it is a global technology company that depends on customer trust, innovation, supplier relationships and responsible management. Its corporate governance and ethics practices help guide business decisions, protect customer information and maintain accountability.

As Apple Inc., operates across different countries and works with a large network of suppliers, ethical business practices and legal compliance are important for its long-term success.

### Importance of the Policy in Modern Business

Modern businesses must maintain transparency, protect customer information, treat employees fairly and follow legal requirements. Corporate Governance and Ethics Policy helps organisations make responsible decisions and maintain stakeholder confidence. For Apple, these policies are important because customers expect privacy protection, investors expect accountability, and society expects responsible environmental and labour practices.

### Impact on Employees

Apple employees should follow company policies, act honestly, protect confidential information, avoid conflicts of interest and treat others fairly. Regular training and proper reporting procedures help employees understand their responsibilities and maintain an ethical working environment.

### Impact on Customers

Customers expect Apple to provide reliable products and protect their personal information.

- Privacy practices help protect customer data.
- Clear information helps customers understand how their information is handled.
- Responsible business practices support customer confidence.
- Strong security measures help reduce the risk of unauthorised access and data misuse.

**Impact on Stakeholders**

- Shareholders: Improve transparency and protect investor interests.
- Suppliers: Encourage fair labour practices and environmental responsibility.
- Management: Support better decision-making and risk management.
- Regulators: Promote compliance with applicable laws.
- Communities: Support environmental protection and worker welfare.

**Contribution of the Policy**

- **Risk Management:** Reduces financial, legal, privacy and reputational risks.
- **Ethical Practices:** Promotes honesty, fairness and responsible behaviour.
- **Corporate Governance:** Improves transparency, accountability and management oversight.
- **Legal Compliance:** Ensures adherence to applicable laws and regulations.
- **Long-Term Growth:** Builds customer trust, investor confidence and sustainable growth.

## Recommendations

- **Strengthen Supplier Monitoring**

  Apple should conduct regular supplier inspections and take corrective action when suppliers fail to meet required standards.

- **Improve Transparency**

  The company should provide clear information about ethical issues, supplier violations and environmental progress.

- **Regular Employee Training**

  Employees should receive regular training on ethical conduct, privacy, conflicts of interest and anti-corruption.

- **Strengthen Whistleblower Protection**

  Apple should provide confidential reporting channels and protect employees who report misconduct from retaliation.

- **Improve Data Protection**

  The company should regularly review its security systems and protect customers' personal information from unauthorised access.

- **Regular Policy Review**

  Apple should regularly update its policies to meet changing laws, technological developments and business requirements.

## Conclusion

Corporate Governance and Ethics Policy helps an organisation work responsibly, ethically and transparently. Apple Inc. follows governance practices that support accountability, customer privacy, supplier responsibility and environmental protection. Regular training, better transparency and proper monitoring can improve these practices. Strong governance helps Apple maintain stakeholder trust, reduce risks and achieve long-term business success.
